# PUBLIC SAFETY CHAPLAINCY

Public Safety Chaplaincy focuses on providing pastoral care and support to employees of first responder agencies and their families. Services are also extended to victims and their families involved in tragic events. Many Public Safety Chaplains work as volunteers, though some departments have paid chaplain positions. The public safety chaplain should be a person ready to answer the call to this particular ministry of service and sacrifice. They serve in supporting men and women whose daily work is often stressful and rigorous, both emotionally, mentally, and physically.
